EXAMINER'S AMENDMENT

Remark

- This Office Action is in response to applicant's request for reconsideration (please see the interview summary enclosed), on March 4, 2004. It is also in response to applicant's amendment filed after final rejection on February 10, 2004, which will be entered.
- By this amendment, the applicant has canceled claims 1, 6, and 11, and has amended claims 2, 4, 7, 9, 12, and 14.
- Claims 2-5, 7-10, and 12-15 remain pending in this application.

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Tom Brown on March 4, 2004.

The application has been amended as follows:

In claims 4, 9 and 14, **delete** the following equation:

$$h_{\phi} = \frac{\lambda}{2(\cos\alpha + \cos\beta)}$$

and **replace** with the following equation,

$$h_{\phi} = \frac{\lambda}{2(\cos\alpha + \cos\beta) \cos\phi}$$

Examiner's Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: of the prior art references considered none has disclosed a plane diffraction grating having grooves formed on the surface thereof and the diffraction grating is rotated about an axis, defined as rotational axis, and the profile of the grooves at a *radial area* defined by the *azimuthal angle ϕ measured with respect to the rotational axis* is determined and dependent on the azimuthal angle, as set forth in the claims. The plane diffraction grating could be a *blazed grating* with the *blaze angle* at a radial area defined by the azimuthal angle ϕ determined by the equation set forth in the claims. The plane diffraction grating may also be a *laminated grating* with the grating depth at a radial area defined by the azimuthal angle ϕ determined by the equations set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Audrey Y. Chang whose telephone number is 571-272-2309. The examiner can normally be reached on Monday-Friday (8:00-4:30), alternative Mondays off.

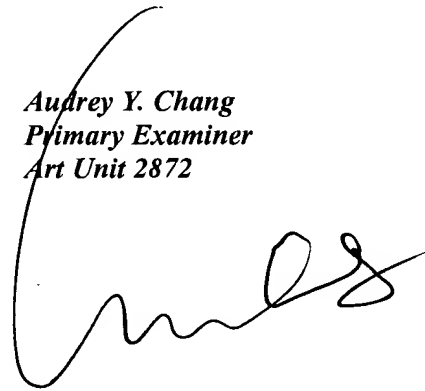

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew Dunn can be reached on 571-272-2312. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
